

NSSL EEO Advisory Representative: Dr. Robert (Bob) Rabin

[Dr. Robert \(Bob\) Rabin](#)

I have an interest in the interconnectivity of our everyday life with the past. Growing up near Chicago, I was fascinated with observing the sky and weather at an early age. While living in Montreal Canada, I received degrees in meteorology from McGill University, and later a doctorate in meteorology from the University Pierre et Marie Curie in Paris, France. Since then, I have been a research meteorologist with the National Oceanic and Atmospheric Administration's (NOAA) Severe Storms Lab in Norman, OK. I am also an honorary fellow with the Cooperative Institute for Meteorological Satellite Studies (CIMSS) at the University of Wisconsin-Madison, and City College of NY. In addition to meteorology, I have been enchanted with the benefits of yoga, which I practice and teach. I serve on the board of directors of the Indigenous Cultural Preservation Project: <http://thepreservationproject.org/about/>.
